PROFILE SUMMARY

Front-End Developer with hands-on experience building responsive, performance-optimized web applications using React.js, JavaScript, and Tailwind CSS. Skilled in REST API integration, component-based architecture, and Git-based workflows. Passionate about crafting clean, accessible UIs and integrating AI capabilities to deliver impactful user experiences.

EDUCATION

B.Tech – Computer Science Rungta College of Engineering & Technology (RCET) CGPA: 7.0 / 10.0	Bhilai, CG Sep 2021 – May 2025
Higher Secondary (Class XII) Shakuntala Vidyalaya Percentage: 90.4%	Bhilai, CG Apr 2019 – Mar 2021
Secondary (Class X) Shakuntala Vidyalaya Percentage: 72.17%	Bhilai, CG Mar 2019

TECHNICAL SKILLS

Languages:	HTML5, CSS3, JavaScript (ES6+), SQL
Frontend:	React.js, Redux, React Router, Tailwind CSS, Responsive Web Design
Tools:	Git, GitHub, VS Code, Chrome DevTools, Postman, Vercel
AI / APIs:	Google Gemini AI, REST API Integration
Concepts:	DOM Manipulation, Component-Based Architecture, ATS Optimization, UI/UX Principles

PROJECTS

Resume Radiance — AI Resume Analyzer React.js · JavaScript · CSS · Google Gemini AI Live: ai-resume-analyzer-ashen-gamma.vercel.app - Built an AI-powered resume analysis platform using React.js that evaluates resumes against job descriptions and delivers instant ATS-style scoring and strategic feedback. - Integrated Google Gemini AI to generate personalised, role-specific recommendations that improve keyword density, skills alignment, and overall resume quality. - Engineered an ATS scoring engine that analyses skill matches, keyword relevance, and section completeness to produce a quantifiable job-fit score. - Deployed on Vercel with CI/CD pipeline integration for fast, zero-downtime releases.	May 2026
Eternal Frames — Wedding Photography Booking HTML · CSS · JavaScript Live: eternal-frames-git-main-babarali1741s-projects.vercel.app - Developed a responsive wedding photography booking website enabling clients to explore packages, browse portfolio galleries, and book sessions online. - Crafted a visually polished UI using semantic HTML5 and CSS3 with a strong focus on aesthetics and user engagement. - Deployed on Google Cloud via a Linux virtual machine, ensuring 24/7 uptime and cloud-based reliability. - Implemented dynamic JavaScript features including smooth navigation, interactive service showcases, and real-time booking interactions.	Feb 2026
